Jonathan Eveth Alavez Reyes

Norristown, PA, 19401 ◆ (484)-682-2798 ◆ joni17111@outlook.com ◆ linkedin.com/in/jonathan-alavez

Education

The Pennsylvania State University, Abington, PA *Expected Dec 2026*

Senior. Currently working towards a Computer Science bachelor's degree

- 4.0 GPA, HSF Scholar, Schreyer Honors College Scholar, The President Walker Award, The President Sparks Award, The Exemplary Leader Award, The Ayoub Mathematics Achievement Award, The Abington College Science & Engineering Outstanding Scholarship Award

Professional Experience

Deloitte ***Philadelphia, PA***

AI Innovation Fellow — CPG-Innovation (ConAgra Brands) *June 2026 – Present*

- Migrated a production LLM chat integration to a new framework version across 7 pull requests with zero regressions.
- Built full-stack features connecting an AI chat assistant to a concept-generation platform, improving output quality and reliability.
- Diagnosed and resolved complex end-to-end test failures across the React and Python codebase using Playwright.
- Authored technical research and documentation adopted by the engineering team.
- Technologies: TypeScript, React, Python, FastAPI, LangGraph, CopilotKit, Playwright, Git

JLG Industries ***McConnellsburg, PA***

AI Engineering Intern *May 2025 – May 2026*

- Designed a production-level LLM solution to summarize 200,000+ Salesforce call transcripts stored in Databricks, filtered by machine model and fault code.
- Engineered & optimized prompts for GPT-4 to extract technician troubleshooting patterns, reducing documentation time from 10+ hours to under 1 hour.
- Developed a searchable internal interface enabling knowledge writers and agents to retrieve GPT-based summaries.
- Trained 50+ support technicians to use the system during live calls, enhancing support speed and consistency.
- Technologies: OpenAI API, Prompt Engineering, Python, PySpark, Databricks, SQL, Salesforce API, Flask

U.S PA Army National Guard ***King of Prussia, PA***

Sergeant (E-5) *January 2022 - Present*

- 1st Squad Leader in charge of 13 soldiers
- Acquired a strong sense of discipline, drive, accountability, and respect

Research Experiences

ACURA Robotics Research Project *October 2023 – October 2024*

- Built a ROS robot from scratch that contains 2 cameras, a lidar sensor, and a Raspberry Pi.
- Developed a ROS-powered autonomous robot with ML-based object detection.

ACURA AI & Self-Efficacy *October 2024 – Present*

- Explored AI's effect on students' self-efficacy in communication.
- Performed quantitative analysis: Pearson correlation, ANCOVA, regression.

Editory.AI Research *December 2024 – Present*

- Focused on **prompt engineering and user behavior** for LLM-based writing tools.
- Co-presented findings at the **University of Maryland Research Symposium**.

Coding Projects

Portfolio AI Chatbot *August 2025 – Present*

- Implemented a retrieval-augmented generation (RAG) pipeline that embeds user queries, performs vector search over a curated knowledge base, and generates answers using retrieved context.
- Deployed a quantized model as a long-running Linux/Raspberry Pi service and exposed a Flask API for real-time question answering from a portfolio website.
- Tracked experiments and deployment readiness with MLflow, adding logging and repeatable run comparisons to support reliable iteration. Link: https://jonathanalavez.vercel.app/

Leadership & Community Engagement

Student Government Association ***Abington, PA***
Director Educational Equity *August 2024 - Present*

- Lead and worked with a team of 5 senators developing legislations.
- Worked with a team composed of 6 directors that oversee change in PSU Abington.

Abington Computer Science Society ***Abington, PA***
Vice-President *August 2024 - Present*

- Organized technical workshops and led a team of 7 in planning campus CS events.

Academic Integrity Committee ***Abington, PA***
Student Representative *Aug 2024 – Present*

- Participated in academic review boards for student conduct and integrity cases.

Office of Global Programs ***Abington, PA***
Peer Mentor *Apr 2024 – Present*

- Supported 8 international students and led onboarding for over 150 peers during orientation.

Centro de Cultura Arte Trabajo y Educacion ***Norristown, PA***
Volunteer Member *March 2025 - Present*

- Mentored middle & high school students; developed workshops for 25+ students at CCATE.

Professional Development

- Vanguard | North Star Program
- CodePath | Intermediate Technical Interview Preparation Course & Android Dev Course
- Coursera | DeepLearning.AI Neural Networks & Deep Learning Course
- Schreyer & Deloitte Foundation | Leadership Development Center
- Abington ACURA Research Fair | Arts & Humanities 1st place

Skills & Interests

- **Programming & Tools:** Python, Java, JavaScript, TypeScript, SQL, HTML/CSS, React, Flask, FastAPI, PySpark, Databricks, Git, Playwright, Salesforce API, ROS
- **AI & ML:** Prompt Engineering, LLM Integration, Agentic AI (LangGraph, CopilotKit), RAG, OpenAI API (GPT-4), LLM summarization, ML model integration, Pandas
- **Languages:** English (fluent), Spanish (fluent)
